2018 - 2019

Front End Developer

[Pribas GmbH](#), Antalya, Turkey

Project: [Air Broker](#)

- Collaborated with project managers to select ambitiously, but realistic coding milestones on pre-release software project development.
- Developed Javascript applications in the separation of concerns (SoC) architecture for the Travel industry.
- Planned and developed interfaces using Sencha ExtJS that simplified overall management and offered ease-of-use.
- Authored code fixes and enhancements for inclusion in future code releases and patches.
- Gathered and defined customer requirements to develop clear specifications for project plans.

2017

Trainee Penetration Tester

[TURKSAT Satellite Communication Cable TV and Operation](#), Ankara, Turkey

Project: [SatCloud](#)

- Analyzed test results and prepared system-level evaluation reports to verify and validate system performance.
- Tested, identified, and troubleshoot problems
- Developed efficient technical solutions to resolve a wide range of most known vulnerabilities.
- Seek, identified, and attempted to breach existing weaknesses in digital systems and computing networks.
- Planned, implemented, tested, and documented solutions within professional third-party applications.

2016 - 2017

Network Administrator

SEM Computer Network Systems, Karabuk, Turkey

- Monitored stability of the network and wireless services to deliver comprehensive stability.
- Used diagnostic tools to identify hardware failures and replace non-functional components.
- Linked computers to network and peripheral equipment, including printers and scanners.
- Configured hardware, devices, and software to set up work stations for employees.
- Installed equipment for data communications networks including cabling, wireless routers, and telephone systems
- Performed system maintenance and upgrades, including patches, service packs, hotfixes, and new security configurations.

2012 - 2015

System Administrator

Anatolia Computer Service, Karabuk, Turkey

- Removed malware, ransomware, and other threats from laptops and desktop systems.
- Responded to support requests from end-users and patiently walked individuals through basic troubleshooting tasks.
- Researched and identified problems with computers and advised staff and clients on plans of action.
- Configured hardware, devices and, software to set up work stations for employees.

Education

2019 - 2021

Master of Science: Information Systems

Wrocławska Wyższa Szkoła Informatyki Stosowanej - Wrocław, Poland

- Thesis: Cybersecurity in smart cities
- Professional development completed in Intellectual Property Rights

2012 - 2017

Bachelor of Engineering: Computer Engineering

University of Karabuk - Karabuk, Turkey

- Awarded Oracle Course Completion
- Professional development completed in Artificial Intelligent and Machine Learning
- Thesis: Calculation Heart Attack rate by external parameters in humans by Machine Learning (87% success rate)
- Professional development completed in Object Oriented Programming

Hobbies

- Ever since I was a child, I've had a keen interest in cooking. I love making food that tastes great and makes people happy.
- Traveling gets me out of the office while giving me time to think about The Big Picture and bring back new ideas.
- Fishing takes up quite a lot of time in my life and it definitely improves my work ethic. Discipline and patience are two extremely important factors when it comes to managing co-workers and customers.
